Dry Bones Come to Life

John Gabriel Arends

E A
No longer will they say there is no hope, you're too far gone
No longer will they say it's far too late, it's just too small
C#m B A
Nothing good has ever happened there
Nothing big will ever happen here

C#m B A
You make dry bones come to life
You make dry bones come to life
You make dry bones come to life
To worship You

E A
No longer will I say it's too hard for You, too good be true
No longer will I say I am far too weak, it's out of my reach
C#m B A
No one has seen God do this before
I am glimpsing what You have in store

E F#m A B
You save the best wine for now
You save the best wine for now
You choose forgotten places and empty spaces
So You can come and fill
Lord you will come and fill
I know You will come and fill
